This book is for lovers of true crime and mystery. High school senior, Pip, decides to investigate a seemingly open and shut local murder case for her senior capstone. But she knew the supposed murderer, Sal, and could not believe he did it. Her digging uncovers secrets and lies that might prove Sal's innocence, but it's also putting her own life at risk. You can also watch the TV adaptation on Netflix now!

Welcome to Susana!

Hello everyone! My name is Susana Delgadillo and I am excited to start my new job as a Library Technician at Ventura College East Campus. For the past year I have been working as a Bilingual Library Assistant at Oxnard College. My first library job was working the Circulation Desk at my community college in 2015, and it feels really great to come full circle and be able to serve students in my current role.

I have experience working in academic libraries, public libraries, and with museum, special collections and archives. I loved working in libraries so much that I decided to pursue a Master in Library and Information Science. This past June I received my degree from the University of Washington, Seattle (Go Huskies!). I am passionate about connecting people to the information and resources they need to accomplish their academic and personal dreams.

When I'm not at work you can find me hiking or playing ball with my dog Clara, or whipping up some good food in my kitchen. My favorite thing to eat are chile relleno burritos and I am still looking for the best one in Ventura County, please send recommendations my way!
